FULL-TIME EQUIVALENT RESEARCH EXPERIENCE

- *If you do have a doctoral degree at the deadline of the call, this file is not needed.*
- *Applicants who do not hold a doctoral degree by the deadline of the call (February 24, 2022) must demonstrate that they have at least 4 years of full-time equivalent research experience by the deadline of the call (February 24, 2022).*
- *Showing the Full-Time Equivalent Research Experience can be done by completing this file <u>and</u> adding the proof requested. Use the [flow chart](#) on our website as guidance.*

*Full-Time Equivalent Research Experience is **measured from the date when a researcher obtained the degree entitling him/her to embark on a doctorate** (either in the country in which the degree was obtained or in the country in which the researcher is recruited or from where he/she is seconded), even if a doctorate was never started or envisaged.*

- *Do not indicate periods before the University degree giving access to PhD or after the call deadline.*
- *"Research experience" means any professional or academic research activity acquired in the public or private sector. Part-time research experience must be counted pro-rata.*
- *Proof is needed for all research experience included. Check the [flow chart](#) on our website to see what proof is needed.*
- *In case of overlapping periods when several activities are carried out in parallel, applicants should only indicate a cumulative percentage up to 100% (e.g. 50% Doctorate + 50 % research assistant).*
- *The four years mentioned above are calendar – as opposed to academic – years. Thus, every month counts.*
